I'm a computer science student from India, born in Gopalganj, in the state of Bihar.

I completed my primary education at St. Paul's School Sasamusa, which laid a solid foundation for my academic journey.

The school played a vital role in shaping both my educational and personal development, preparing me for future achievements.

I attended Imperial Public School Hathwa from 9th to 12th grade, enrolling in April 2015 and completing my studies in March 2019.

I was honored to serve as the School Captain during my 11th grade, showcasing my leadership and dedication to the school community.

I successfully completed a Diploma in Computer Application (DCA) from Wizard-Tech Computer Academy.

I completed my BCA at LNMI Institute, Patna, affiliated with Aryabhatta Knowledge University and approved by AICTE, between 2019-2022.

I currently work as a Linux System Administrator at Wipro and am simultaneously pursuing a Master of Technology (M.Tech) degree in Computing Systems and Infrastructure at BITS Pilani.

I have contributed to various projects on my GitHub profile.

I maintain a personal website where I share my thoughts and experiences.

Please find my detailed resume.

Additionally, I invite you to connect with me on LinkedIn to explore potential

synergies and opportunities for collaboration.

That's me, today. I'll be different tomorrow, hopefully better.
